V2verify™ Named as a MassChallenge Finalist

June 2, 2020 – V2verify was named a Top Finalist for MassChallenge Texas 2020 accelerator program. This program recognizes V2verify as one of 14 top startups out of 79 companies selected from over 650 applicants.

"V2verify uses the power of voice authentication to eliminate the "either-or" decision between improving security and providing a great user experience," says Damian De Rozairo, V2verify's Founder and CEO. "Being selected as a MassChallenge finalist is a reflection of our technology and the tremendous need to provide a better user authentication method."

V2verify was developed to replace current user authentication methods, such as passwords and challenge questions. According to Mr. De Rozairo, "With the need to authenticate an individual at every touchpoint, for it to be contact-less and not propagate the spreading of germs, and for it not to infringe on a user's privacy, the case for V2verify as an authentication technology has only strengthened."

The top MassChallenge finalists were identified through a round of live pitches to top corporate executives, industry, and innovation leaders. During the final judging round, the top startups will demonstrate their growth and impact to a new panel of judges who will determine the competition winners.

ABOUT V2VERIFY

V2verify, a voice biometrics company, provides a simple solution to a complex problem - user authentication and identity access management. With V2verify, **SPEAK** for 2 seconds on any device, **AUTHENTICATE**, V2 has a 99% authentication success rate, and **ACCESS** your information with a contact center, login to a website, a mobile app, a portal, open a locked door, or even clock in or out of a time management system. V2verify is changing the way businesses are handling user authentication and identity and access management.

ABOUT MASSCHALLENGE

MassChallenge is a global network of zero-equity startup accelerators. Headquartered in the United States with locations in Boston, Israel, Mexico, Switzerland, Texas, and the UK, MassChallenge is committed to strengthening the global innovation ecosystem by supporting high-potential early stage startups across all industries, from anywhere in the world. To date, more than 2,400 MassChallenge alumni have raised more than \$6.2 billion in funding, generated over \$3 billion in revenue, and created over 157,000 total jobs.
